Bachelor of Technology in CSE(CGPA of 8.85)

Sehore, Mdhya Pradesh

Projects

VISIONi | *NodeJs, Express, NOSQL(MongoDB)* | [Github Link](#)

4

- An interface which will help farmers to reduce their farming costs and improve their crop production. This website will also help farmers to share their problems and get easy and fast results with much more to be added.
- The 'Equipments' section will help the users to suggest some products like tractors, harvesters etc. The map section helps farmers to get agricultural shops near them. Much more is going to be added.

ConnectIT | *NodeJS, MongoDB and Express* | [Github Link](#)

4

- (GROUP PROJECT) A basic website which stores users on the basis of their skills and users can improve their skills by interacting with other users through open chat.
- .My first project made using NodeJS, mongoDB and Express for back-end and HTML and CSS for front-end

Achievements

- Solved 220+ questions on LeetCode(LeetCode Account)
- Max. rating of 1460 on Codechef (Codechef Account)
